AVENGERS 2P & 1P COIN PUSHERS

Andamiro's popular Marvel Avengers coin pusher line is offered in four models: one that operates with a collectible card series featuring nine Avengers, and another that operates without cards – both options in 2- or 1-player cabinets. All versions are ticket-redemption games. Avengers is a feature-rich, rapid-fire coin pusher inspired by the Infinity Stones storyline in the “Avengers” movies by Marvel Studios. Players fire tokens at a moving target wheel to win tickets and other rewards, and to populate the pusher playfield. The game's main objective is to “push” the Infinity Stones, which also reside on the playfield, off the ledge. A Bonus Spin game is enabled when one stone is dropped. © 2020 MARVEL Studios

BOBBLEHEAD BASEBALL: 1P ORIGINAL

A novel ticket redemption video game

Bobblehead Baseball a video redemption game and Andamiro's first licensed title from MLB Players Inc., a subsidiary of the MLBPA. The novel "viredemption" game pits arcade gamers against the bobble-headed avatars of MLB's biggest stars in this fast-action, wholesome video game that awards tickets. Pitchers are programmed to throw fastballs, curveballs or changeups. There are seven outfield targets that players can hit or need to avoid. Aim for the targets with points to accumulate tickets or hit the letters to spell G-R-A-N-D—S-L-A-M to win the Super Bobblehead Bonus. But try to avoid hitting the out markers – three outs end the game, naturally. Players apply hand-eye coordination to time their swings and accurately aim the ball.

Unleash the fury: high-energy gameplay in a 4-player cabinet

Andamiro's Krazy Ballz is a vibrant arcade game that stands out as a 4-player centerpiece. Krazy Ballz pits players against each other in a fast-paced competition; the objective is to collect balls that match their designated zone color – red, green, blue and yellow – with purple balls acting as wild cards.

Set within a radial wind simulation dome, the game employs a centrifugal energy system to animate the balls in a chaotic motion. Players aim to be the first to gather four matching balls to win, while quickly ejecting opposing ones, with the added incentive of earning a 2,000-ticket Super Bonus by collecting four purple balls.

Gameplay encourages quick thinking, strategy and agility, making it an engaging challenge for participants. Boasting a 75x75-in. footprint (about 39 sq.ft.) and appealing to a wide audience, Krazy Ballz promises to be a lasting attraction among multiplayer redemption game offerings.

SPIDER-MAN COIN PUSHER

The ultimate in coin-op entertainment

Officially licensed by Marvel Studios, the Spider-Man Coin Pusher is an exciting new coin game presented in a captivating two-player Spider-Man cabinet. Andamiro's arcade homage to the legendary Spider-Man universe will instantly grab the attention of anyone who approaches it.

Gameplay hinges on the player's accuracy in launching coins at targets, amassing those coins on the pusher platform, which steadily advance forward, carrying Spider-Man's distinctive blue and red spheres. Players challenge their timing skills to launch coins at illuminated targets, each shot setting off a sequence of events.

Spider-Man operates with three in-game pieces:

1. Tokens – 1,000 per side;
2. Red balls (55mm.) – 13 per side;
3. Blue balls (30mm.) – 55 per side.

There are no dispensable ticket items like character cards or chips – all pieces are self-contained.

At the heart of the Spider-Man Coin Pusher is the auto-rotating coin-firing mechanism that brings Spidey's web-shooting prowess to life.
